## Version 19.3 and Subsidy Adjustment for GST Increase

A number of customers who have applied the v19.2 patch have highlighted the following issues:

- Invoice service detail format on the tax/receipt document is not displayed.
- Outbox Document Wizard – the last long term classification was being inserted.
- Location Setup - the user was being prompted to enter a GST value.

Medtech Ltd is pleased to advise the following update will address the above issues which are available along with the release notes from [www.medtechglobal.com](http://www.medtechglobal.com). Region: New Zealand ▶ Medtech Online ▶ Medtech32 ▶ Downloads.

- **Version 19.3 Build 2982 Update**

This update includes the following:

- Invoice Format
- Outbox Document Wizard
- Location Setup

- **Subsidy Adjustment for GST Increase Update**

This update adjusts the GMS Subsidies with the New GST increase.

---

### ***GMS Adjustment Utility (Optional)***

*To assist you with the calculation of the GMS adjustment, a utility is available on the Medtech website called '[GMS Utility Tool 2010.xls](#)'.*

## **Important Information**

### **You will only need to run one of these updates**

Please follow the criteria below to determine which update you need to run.

- If you **ARE ON** Medtech32 Version 19.2 Build 2975 or higher, please download and run the Version 19.3 Build 2982 Update and the GST Subsidy Increase Update.
