

medtech **KIOSK**

Improve your patient's experience and practice efficiencies

Patients can register their arrival, confirm appointments and update their contact details and demographics independently of reception staff. Updated details automatically sync with your Medtech Patient Management Software

Imagine a seamless, cost effective way of improving patient engagement and practice efficiencies

Key Features

Self Check-In

Provide patients the ability to check themselves in upon arrival

Update Details

Patients can update their own contact details and demographics

Simplicity

Workflows have been kept simple, to make them as intuitive as possible

Synchronicity

Patients' actions are automatically sync'd into your Patient Management System

Key Benefits

Patient Empowerment

An entirely new way of engaging your patients, improving their overall experience

Data Quality & Integrity

Improves the quality of the info in your database, as patients can update their own details

Productivity

Reduced administrative time and patient waiting time in reception

Future Proof

Routine releases ensure we keep up to date with the latest technology innovations

Medtech Kiosk uses the latest touch screen technology to integrate seamlessly into your Medtech Patient Management System
